DETAILED ACTION

This Office action replies to the appeal brief in paper no. 14 filed on 5/25/2004.

Acknowledgment

1. The appeal brief in paper no. 14, filed on 5/25/2004, responding to the Office action in paper no. 12, mailed on 1/28/2004, has been entered. The present Office action is made with all previous amendments and the reply brief being fully considered. Accordingly, pending in this Office action are claims 1-10.

Reasons for Allowance

2. Claims 1-10 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The application is allowable for the reasons set forth on page 16 of the appellant's brief. As argued therein, the claimed invention requires a step of forming a fourth insulating layer in the high-voltage region, the memory region, and the logic region. Fang, a closest reference, performs an oxidation step to form the fourth insulating layer across the surface of the device, which includes the high-voltage region, the memory region, and the logic region (see, e.g., col.7/ll.10-14 and figs. 5h-5i). He, however, teaches that the fourth insulating layer does not grow appreciably on the

memory region (see, e.g., col.7/ll.19-24 and figs. 5h-5i). The examiner agreed and allowed the application.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Papers related to this application may be submitted directly to Art Unit 2814 by facsimile transmission. Papers should be faxed to Art Unit 2814 via the Art Unit 2814 Fax Center.
